

PKF Cayman offers experience in offshore services

PKF Cayman, one of the premier accounting and business advisory firms in the Cayman Islands, has enjoyed strong growth since its inception in October 2007. The firm serves many clients that require global support for audit, tax and consulting services. In particular, the firm has a wealth of experience auditing offshore vehicles - in particular hedge funds and captive insurance companies - and is committed to providing clients with a responsive, knowledgeable and professional service. Delivery of this commitment has helped the firm achieve significant growth in Grand Cayman.

Reflecting its strong record of growth, the firm has commenced operations under its new name recognising a new affiliation with the PKF International Limited network of independent accounting firms. The firm, formally known as Baker Tilly Cayman, is at 171 Elgin Avenue in George Town.

Ben Leung, the managing partner of PKF Cayman, says "It's all about the people. Our talented professionals here are dedicated to providing great client service but now it gets even better. The skills and talents of hundreds of PKFI professionals can now be directed to PKF Cayman clients and that makes us the clear choice for growing companies seeking true global excellence." PKFI is the world's 11th-largest international network of legally independent accounting firms with around 245 member and correspondent firms in 125 countries and aggregate fees of \$1.9 billion. Mr. Leung continued, "Responsiveness, attention to detail, deep industry

From left to right, Ben Leung (Managing Partner), James Lewis (Audit Manager), and Neil Maynard (Audit Manager).

knowledge and technical expertise are the hallmarks of all PKFI member firms and our clients are the beneficiaries."

Mr. Leung was formerly an audit partner with Moore Stephens (Cayman Islands) Ltd and has over eight years experience auditing Cayman captive insurance companies and funds registered with the Cayman Islands Monetary Authority.

PKF Cayman's management team includes

Neil Maynard and James Lewis. Mr. Maynard, a chartered accountant with 12 years audit experience, has been with PKF Cayman since 2008, having joined from Grant Thornton in the UK where he was a senior manager. Mr. Lewis is also a chartered accountant with 12 years experience in public practice and has previously worked in Australia and Canada.

PKF Cayman continues to play an active role in the local community, providing numerous

sponsorships including most recently sponsoring a runner for the New York City Marathon in aid of the Breast Cancer Foundation of the Cayman Islands. It has also given a scholarship to a Caymanian to enable her to complete a Bachelor of Science in Business - Accounting degree.

In addition to auditing hedge funds and captive insurance companies, PKF Cayman also provide audit services to local companies including Jacques Scott Group Ltd.
